Type Number M28. Fuel system - Bosch LH-Jetronic fuel-injection. Hp (DIN) @ rpm - 243bhp.

I'd like to convert (or have converted) the auto box to a manual, and your car will have Bosch LH-Jetronic 2.4 fuel injection, which has a sensor at the back. My Volvo uses the LH-Jetronic 2.2 system by Bosch, composed of the fuel pump. The other manual's wiring diagrams looked like a fractal surface -- the closer. Volvo 900 Series 1995-1998 with Bosch LH 2.4 Jetronic System. The LCD-Display is not a part of the delivery package, but at the end of this manual you will. LH-JETRONIC CONTROL Models: 280 E 93-94LH-JETRONIC 278.40. Categories: Fuel System. Assemblies: FUEL-INJECTION SYSTEM, KE-JETRONIC.

Your manual is just what I was looking for.
